

The 2006 Compensation and Payroll Systems & Services Buyer's Guide will serve as a valuable reference tool. For your convenience, the Guide has two sections: a Categorical Listing and an Alphabetical Listing. In the Categorical Listing, companies are listed under the product and service categories of their choice. For information on a specific company and its products and/or service, please refer to the Alphabetical Company Listing.

While a listing in this guide does not constitute an endorsement by IHRIM, it does indicate that these companies are interested in serving the needs of HRIS professionals. We hope this Buyer's Guide will assist you in your purchasing decision.

Common Cause: Shared Services for Human Resources

Edited by Karen V. Beaman

People may ask why the world needs another book on shared services or human resources (HR) for that matter. Yet among the plethora of materials, there isn't one single source for the HR professional to turn to when given the new assignment "implement shared services" or "optimize existing shared services operations." Hence, this book was conceived with the goal of becoming the definitive resource on shared services for Human Resources.

This book is divided into 14 fairly autonomous sections – all critical components in an effective shared services deployment. The chapters can be read sequentially by the neophyte seeking a comprehensive understanding of shared services in the HR environment or individually by the experienced professional looking to improve the company's existing operations.

Pre-publication Prices Good until November 15, 2006:
